

San Diego
Habitat
for Humanity®

*Building
houses,
building
hope*

June 19, 2009

It is my sincere pleasure to recognize Rick Mays for his commitment to San Diego Habitat for Humanity. I have had the pleasure of working with Mr. Mays over the last three years. It is clear his passion for our organization far exceeds many of our supporters.

His company, RL Mays Construction first supported San Diego Habitat's home building program by donating the labor to frame two homes during our 2006 Builder Blitz where San Diego Habitat for Humanity built four homes in five days! RL Mays Construction repeated their generosity by donating the framing of another house in the 2008 Builder Blitz and has committed to framing a fourth home for the 2009 Builder Blitz.

Impressed with Mr. Mays' dedication for our mission, he was invited to join San Diego Habitat for Humanity Board of Directors in 2007. We were very pleased he accepted the position and thus participated on the Construction Committee. Our support from Rick Mays continued when he accepted the role of Board President in early 2008. As Board President, Mr. Mays is responsible for determining how the organization carries out its mission through long and short range planning and review, adopting an annual budget and providing fiscal oversight, evaluating its performance and the overall performance of the organization in achieving its mission and establishing policies for the effective sustainability. This is not always an easy task considering the many facets, challenges and complexities that create our organization.

We consider it a privilege for Mr. Mays to be a part of our "team" for we know he brings forth a wealth of expertise and experience. San Diego Habitat for Humanity had been guided by his exceptional skills and talents. Above all, Mr. Mays is a warm and caring individual both professionally and personally and is a pleasure to work with.
